Taking inspiration from R&F's Pigment Sticks, R&F Drawing Oils offer a smooth & portable drawing experience with a harder formulation (less oil, more wax).

Unlike oil pastels, crayons, or chalk, R&F Drawing Oils will dry to form a permanent, protective oil film. No need for fixative.

The size, shape, and formulation make R&F Drawing Oils ideal for play and practice, pairing well with your favourite sketchbooks, stretched canvas and panels.

## What is the difference between Watercolour and Gouache?

Gouache is distinguished from watercolour by its opacity. While both paints use the same gum arabic binder, gouache typically contains a higher pigment concentration, enhancing its opacity. This makes gouache more dense and covering compared to the transparent nature of watercolour.

GOLDEN Mediums offer artists infinite control of changing acrylic colours. Use Mediums to control transparency, viscosity, and surface sheen. They are made of 100% acrylic polymers, which have proven to have excellent flexibility and chemical, water, and ultraviolet radiation resistance.

# Oil Painting Must-haves

## Gamblin Oil Painting Medium Set \$43.<sup>34</sup>

Available only online and at our McCaul location

**REFINED LINSEED OIL**  
Gamblin Refined Linseed Oil is the palest of linseed oils. Adding Refined Linseed Oil to colours increases flow and slows dry times. Use sparingly or mix with an equal amount Gamsol to create a traditional slow-drying, low-viscosity painting medium.

**GALKYD LITE**  
Galkyd Lite thins oil colours and increases transparency and gloss. When used in moderation with oil colours, Galkyd Lite will retain brushstrokes. Galkyd Lite is more fluid and less glossy compared to Galkyd. Thin layers will be touch-dry in 24 to 30 hours.

**SOLVENT-FREE GEL**  
Solvent-Free Gel gives colours more flow and transparency, yet holds the shape of your brushmark. Solvent-Free Gel has a moderately fast drying rate and increases gloss. Made from safflower oil and alkyd resin, Gamblin Solvent-Free Gel is non-toxic and contains no Gamsol or petroleum distillates. alone as a matte varnish.

**GAMSOL**  
The Standard for Studio Safety.™ Gamsol is the safest solvent that allows artists to work in traditional and contemporary techniques without compromise. Gamsol can be used to thin oil colours and painting mediums, and for general studio clean-up. Gamsol is reusable and non-toxic when used as recommended

**COLD WAX MEDIUM**  
Cold Wax medium is made from naturally white, pure beeswax. Formulated to knife consistency, Cold Wax Medium makes oil colours thicker and more matte. Cold Wax Medium can be used to make Gamblin mediums and Gamvar more matte. It can also be applied alone as a matte varnish.

**GAMVAR GLOSS**  
Gamvar saturates and gives greater depth to the colours in your painting and gives your work a unified and protective semi-gloss surface. Developed in collaboration with the National Gallery of Art, Gamvar goes on water-clear, stays water-clear and can be easily and safely removed with Gamsol.

## Watercolour/Gouache

### Gold Toray Short Handled

Our Gold Toray brushes are considered the finest quality synthetic fibre available. Slightly stiff, it keeps and excellent point and edge for a soft, yet controlled application. Brushes feature nickel plated brass ferrules. Most suited for water media including watercolour, gouache, inks, and poster colour.

### European Sable Short Handled

Our European Sable brushes offer smooth, controlled strokes and a fine point, ideal for precision work.

### White Taklon Wash Short Handled

### White Taklon Short Handled

White Taklon is a man-made fibre which is designed to perform like Red Sable, but at a cheaper price. It has a good point and spring, as well as a sharp edge in the flat format. They have all of the features of our other White Taklon brushes, but are best used with watercolours.

All offers are while quantities last and apply to in-stock items only; no rain checks, holds or special orders. Not applicable to purchases made before August 21<sup>st</sup>, 2025. No substitutions. Cannot be combined with other discounts or promotions, including student discount. While we strive for accuracy, Above Ground reserves the right to correct errors as they may occur. Quantities exceeding regular retail amounts may be limited.

## Mixed Media

### Wave Short Handled

Our Wave brushes are made with a new fibre that has greater capillary action than any of the other synthetic brushes currently available. This brush will hold more paint than a standard synthetic brush and will maintain its shape without splitting, even when slightly dry.

### White Taklon LH

A long handled white taklon brush, ideal for acrylics but also suitable for oils or watercolours.

## Oil/Acrylic

### Hog Bristle Long Handled

White hog bristle ideal for oils and acrylics.

### European Sable Long Handled

Ideal for oils and acrylics.

## Oil/Acrylic

### Red Teijin Long Handled

Made with a thick, stiff synthetic fiber for work with heavier bodied paints. It keeps an excellent edge for a soft, yet controlled application. A great quality synthetic brush with good spring. Long-handled with nickel plated brass ferrules. Best for use with oil and acrylic colours.

### Stencil Short Handled

Made from 100% hog bristle, these brushes are made especially for stencil application which requires a tapping technique. Brushes have short natural wooden handles with round seamless aluminum ferrules.

### Pony Hair Wash

Available in 3/4" and 1".

### Interlock Synthetic Long Handled

Our Synthetic Interlocking series of brushes have a combination of varied diameter synthetic fibers with tapered, interlocking tips. The tapered tips offer a clean edge, giving more control and a better line. The multi-diameter fibers leave spaces in between them which act as a reservoir, creating a brush with exceptional fluid retention and a longer stroke. Stiff and strong, these long handled brushes are designed to withstand the weight and wear of acrylic and oil colours.

### Interlocking Hog Bristle Long Handled

Made from white hog's hair with a triple crimped silver ferrule and long blue lacquered handles, these brushes will ensure a cleaner line and more control for any artist. Ideal for oils and acrylics.

Sets starting at  
~~\$49.99~~ **\$42.49**

The exceptional diameter of the Conte a Paris pastel pencil (5 mm) lead gives genuine freedom of creation and has an unrivalled feel. The pastel is perfect pencil companion to soft pastel because its lead is slightly harder with less pigment. It is preferable to Conte soft pastels and crayons when details is required for small and medium sized formats.

# Pastels

## Rembrandt Soft Pastels

Individual ~~\$7.19~~ **\$6.11**  
Sets starting at **\$51.59**

Rembrandt pastels are world renowned for their pure pigments, high degree of lightfastness, unique warmth, and for their softness and velvety expression. This softness is achieved in part by the use of kaolin, a clear china clay. Meticulous quality control ensures that you always have a top product of consistent quality. The complete range is free of any pigments that are based on the metals lead, cadmium, and cobalt.

## Sennelier Soft Pastels

Individual ~~\$8.89~~ **\$7.56**  
Sets starting at **\$62.89**

The name Sennelier has been synonymous with the finest pastels available in the world, whose intensity of colour and singular velvety feel have been appreciated by pastelists since the turn of the century.

Sennelier's first colours were commissioned by Degas, and are made the same way today by hand. Unlike other pastels, Sennelier pastels are pure pigment and are devoid of any fillers or clay, which dull the pastel's colour.

# MAGNANI 1404

A masterpiece in Italian papermaking

## About the brand

Magnani has been creating superior paper for over 600 years. They make papers using the age-old cylinder mould machines. This traditional method of papermaking gives their products an unmistakable and distinctive texture that cannot be matched by more modern and less elaborate methods.

## Inks

### Speedball Professional Relief Ink

It is a water-miscible, oil-based printmaking ink. It delivers rich, acute, crisp prints, has consistent roll-out, smooth transfer, and holds the finest details. The Professional Relief Inks contain high quality, lightfast pigments that do not contain fillers. It is formulated for the working properties professional artists' desire, but easily cleans up with soap and water.

### Above Ground Studioworks Soft Cut Printing Block

Softoleum blocks are extremely soft, so tools tend to bite into the material as opposed to glancing off as with linoleum. These blocks are quite heavy; nonskid surface tends to keep the material in front of the artist instead of slipping away. Blocks can be carved on both sides.
